WE INVEST IN YOUR SUCCESS

STAFFINGPOWER SPECIALIZES IN GETTING THE RIGHT CANDIDATE PROVIDING THE RIGHT EXPERTISE TO THE RIGHT CLIENT COMPANY AT THE RIGHT TIME.

TALENT RECRUITMENT

We use a variety of methods to attract a diverse group of qualified applicants matching your specific needs.

PERSONAL INTERVIEWS

We meet one-on-one with each applicant to review work history, experience, work preference and availability.

REFERENCE CHECKS

We check multiple references for each applicant, including former employers and/or colleagues.

SKILL EVALUATIONS

We conduct assessments based on job requirements for all of your administrative staffing needs in accounting, call center, customer service, clerical office skills, software, typing, data entry skills and identity assessment.

TEMPORARY STAFFING

These are qualified associates that Staffingpower Inc., can provide to client companies for short timeframes and obligations. Most business select to use temporary staff since it offers them adaptability and access to the ability.

TEMPORARY TO DIRECT HIRE

A temporary employee begins working for you while still on our payroll. You can then evaluate the employee on the job and they get to know you as well. There is no risk. Once the temp contract ends you have the option to offer them a permanent position. If you would like to hire our associate prior to the end of the contract, your new employee can, after following our Contract-to-Hire Conversion Fee Payment Schedule, transfer to your payroll.

DIRECT PLACEMENT

Often it makes more sense to have a new employee on your payroll and benefits package immediately. However, searching for qualified candidates can be time consuming and expensive. This is where we can help.

PRE-EMPLOYMENT SCREENING

We conduct a pre-employment criminal history check on each candidate who applies with us free of charge to you.

We conduct pre-screening in-house drug testing to ensure that the selected employee will be working for you drug and alcohol free,
